

Working From Home

A Roadmap for Remote Success

In today's world, working from home is the new norm.

The challenge leaders face is making sure it's done safely and securely.

Checklist

Connectivity

- VOIP (handset, softphone, company #, or
- Mobile phones (convenient, individual #)
- Collaboration tools (maintain teamwork, facilitate workflow and staff connectedness)

Hardware/Software

- Computing device(s)
- Accessories (monitors, printer/scanner)
- Access to organizational infrastructure (services/resources, VPN, licensing)

Security

- Endpoint Security
- Patching (routine)
- Anti-malware
- Policy (rules and expectations about behavior and usage)

Home Network Security

- VPN
- Firewall
- Wireless security
- Eliminate default settings
- Segmentation
- Authentication (Unique IDs, Strong passwords, Multi-factor)
- Monitoring
- Tool and environment familiarity (reduce risk from phishing/spoofing attacks)
- Security Awareness Training (recognize threats and understand expectations)

Remove the guesswork | Implement *BEST PRACTICES* with ease and certainty!
