

CUSTOM EDUCATOR SOFTWARE SOLUTIONS

Since 2010, Mainstream has made vision a reality for educators with completely custom software solutions.

Our Clients

Mainstream is proud that both the Arkansas and South Carolina State Departments of Education are custom software clients.

Certification System

Mainstream understands the complexities of Educator Certification along with the governing rules and regulations.

School Report Card

We created an award-winning website to make comparing Arkansas schools and districts easy for both citizens and policy-makers.

School Accreditation

We transformed a manual multiple-step process into a single automated system that saves hundreds of hours and eliminates error.

Custom Communication Interfaces

Software must connect to solve problems. We create custom interfaces to talk with your existing systems now and into the future.

Full Service Agency

Mainstream offers more than custom education software. We also provide Managed Services to host and monitor your solution.
