

Incident & Event Monitoring

Reducing risk and liability around cyber attacks

Is Your Business Safe from Cyber Attacks?

Do you think your business is too small to be targeted for cyber-attacks? Think again. It's not a matter of if, it's a matter of when; and 60% of all SMBs face bankruptcy within 6 months of a severe cyber breach.

Employee and customer data, bank account and credit card information, intellectual property and trade secrets: These are the assets that most every business possesses — and that hackers find valuable. Without the right security measures in place, there is real risk that these assets will fall into the wrong hands.

Keep Your Data and Your Business Secure with Mainstream Technologies

We can dramatically reduce your chance of suffering a severe breach while meeting your regulatory audit and reporting requirements.

Our solution provides advanced threat intelligence and the same level of security enjoyed by the largest companies in the world, all at a low monthly cost. Your data is protected in real-time and meets your regulatory, audit and reporting requirements including specific compliance reports you'll need to pass HIPAA, PCI, FISMA and other audits.

Security Made Easy

- ✓ More than a tool – A commitment to Best Practices
- ✓ 24x7 SOC correlation and analysis of event information to strip out the noise and detect suspicious activity
- ✓ Alerts of suspicious activity get triaged by Mainstream using knowledge of your environment to further weed out false positives, begin response actions and alert you of actual attacks
- ✓ Getting a **SIEM** plus a **SOC** for less than the cost of a security analyst
- ✓ Crucial **DETECT** service that complements your **IDENTIFY** and **PROTECT** activities and builds a bridge to your **RESPONSE** activities

24x7 MANAGED NETWORK SECURITY Enjoy 24x7 managed security for your entire network using trained experts & cutting-edge technology

REGULATORY COMPLIANCE Meet your compliance & audit challenges for HIPAA, PCI and other burdensome regulations

COMPREHENSIVE FORENSICS Gain the capability to conduct detailed forensic investigations to help remediate a breach

SECURE YOUR BUSINESS Potentially lower the cost of cyber insurance and minimize the chances of a successful attack while limiting the damage of any breach

Remove the guesswork | Implement **BEST PRACTICES** with ease and certainty!
